

Dear colleagues,

Science Accueil with the Office de Tourisme de la Vallée de Chevreuse, and the AVF (Accueil des Villes Françaises) Versailles is glad to invite you to:

**The guided tour of the Antique District of the city of Versailles**

**The guided tour of “Les Grandes Eaux Musicales”**

Those two visits will take place on **Saturday 6<sup>th</sup> June from 10:45am**

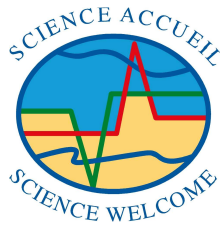

City of art and history, Versailles is world famous. It is a tourist must see in Ile de France. Besides the castle, a place not to be missed is the Antique district of Geôle, born a quarter century ago. It is the largest antiques center in the west of Paris with 50 antique dealers and experts. There are four different spaces connected by narrow streets: the Passage, located in the former walk inmates in the prison of the royal Geôle, the Square with its antique shops that surround the former Halle aux vins, the Village and Baillage.

We offer a guided tour of this artistic site with a meeting of artist and antique dealers.

Known since 1666, the spectacle of the Grandes Eaux Musicales is a true delight. Created to entertain the King Louis XIV and his court, it is continue to dazzle us today. The Grandes Eaux Musicales run 850 acres of gardens, 14 groves and 32 basins. A magical show thinks out this year by Christophe Rousset and Talents Lyriques.

To better appreciate the scene, a bilingual guide will introduce the history of the Fountains, the park and the castle.
