FRENCH AS A FOREIGN LANGUAGE COURSE 2025-2026

OUR PACKAGES

Science Accueil offers **3 packages** that cater to all profiles:

1 Semester-based courses

Regular lessons twice a week during a semester for repeated and long-term learning. Small groups and immersion lessons allow these courses to address writing with a focus on oral expression. Participants also get access to "Apéro-FLE" evenings.

2 Summer course package

Want to make rapid progress in French over a short period of time? Semi-intense summer courses are organised in July and September to get you ready to go back to school or work. We offer 8 to 10 hours of lessons per week with a qualified professor who adapts their programme to the level and specific requests of the group. You will receive a certificate of attendance at the end of the course.

3 "A la carte" courses

Do you have a special request, would you like to offer courses within your organisation? Choose the "à la carte" option: courses tailored to your specific goals, schedule and location, either individually or for a small group...everything is tailor-made!

... They talk about it:

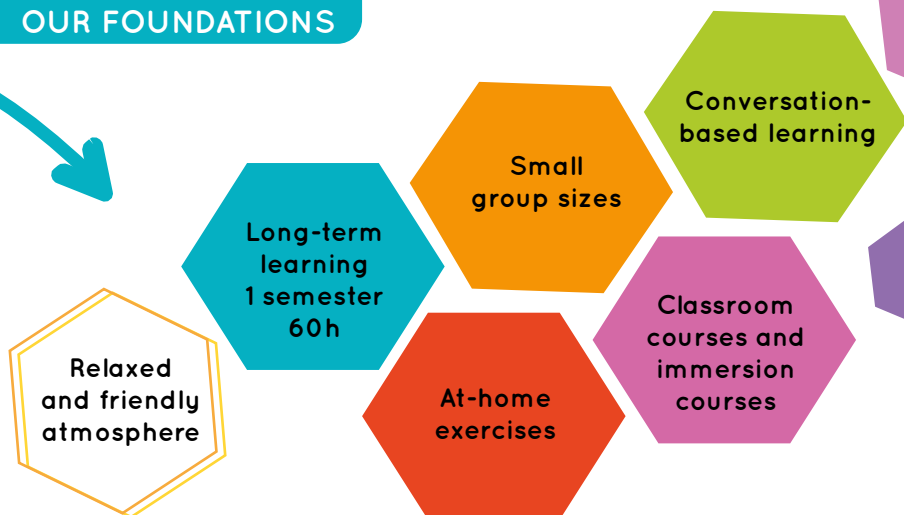

"The courses were a playful teaching which helped to understand more deeply"
(Participant Semester Marsh-July 2025)

"The teacher is good, my classmates are funny, A good learning environment"
(Participant Summer Course July 2025)

SEMESTER-BASED COURSES

OUR FOUNDATIONS

COURSE CONTENT

> Classroom courses and immersion courses

Current affairs, day-to-day topics, French culture, role play and immersion (shops, cafes, landmarks, exhibitions, ...)

*"I thought it was the best of the course. I enjoyed them a lot."
(participant in the March-July 2025 semester)*

> Fête du FLE

A ceremony takes place at the end of each semester: shows, presentations, certificates, cocktail reception.

> Apéro-FLE

In addition to lessons, perfect your French through evening gatherings: cinema debates, games, theme-based discussions, around a drink in a friendly and relaxed atmosphere.

COURSES LEVELS

5

levels are offered, ranging from beginner to advanced, subject to a sufficient number of registrations per level.

An online placement test is offered upon registration.
